RESPONSIBLE CARE GUIDING PRINCIPLES

The **Company**....., **member of the Hellenic Association of Chemical Industries**, commits to implement the **Responsible Care for the Environment programme** by adhering to the following **principles**:

1. The Environment, Occupational Health and Safety constitute an integral part of our company's overall policy.
2. The company's personnel, at all levels, have been made aware of these principles which they are implementing in all production and commercial activities.
3. Our primary concern is to continually improve our performance in all matters relating to the Environment and Occupational Health and Safety.
4. We produce and distribute the products that guarantee a safe and environmentally appropriate production process, transport, use and disposal.
5. We operate our plants and facilities in a way that ensures the protection of the Environment and the Health and Safety of our employees and the public.
6. We provide authorities, our social partners, customers and employees with information on the Health and Safety of our products and facilities as well as our environmental performance.
7. We provide our customers and partners with information to ensure the safe transport, use and disposal of chemicals and the protection of the environment.
8. We work closely with our suppliers to develop similar practices for proper environmental management and safe transport of products.
9. We support Research on the impact of our production process, products and their waste on the environment and employee health and safety.
10. We adopt the principles of Responsible Care for the Environment and promote them so that our experiences will also help other companies that produce, transport, use or dispose of chemicals.
